rainbows

my heart leaps up when i behold a rainbow in the sky wrote william wordsworth the famous poet and most of us share his feelings when we are lucky enough to see a rainbow there is an old saying that a pot of gold is buried at the end of the rainbow but have you ever tried to reach a rainbows end of course its impossible because a rainbow is really just the result of the raindrops refracting and reflecting light from our sun there are seven colors in the rainbow red orange yellow green blue indigo and violet

our solar system includes the sun and all the planets moons dwarf planets and asteroids that orbit around it the four planets closest to the sun include mercury venus earth and mars these inner planets are made of rock and metals they are quite small compared to the outer planets the four outer planets are called gas giants because they are made mostly of gases the outer planets include jupiter saturn uranus and neptune the most well-known dwarf planet in our solar system is pluto

I have a dog he is a Labrador he is black in color he wags his tail and licks my face when he is happy he loves going for walks and chasing a red ball I take him to school sometimes once he saw black cat and wanted to chase her too but I didnt let him is he mad at me I dont know but I sure hope he isnt I love my dog very much because he always obeys me and follows me everywhere
